Welcome Back!

I trust that all students and their families enjoyed a blessed Eid and relaxing holiday. I welcome students back for a busy Term 3, with many events already booked into the school planner!

I implore every parent to read through school communication carefully. It is our tool for relaying important messages to you and ultimately results in a school community which is more efficient and productive.

On that note, I would like to remind all parents and caregivers that it is our duty, as good Muslims, to respect our neighbours. I have been extremely disappointed to receive complaints from the local council and residents regarding poor parking and unsafe driving. Our students' safety is paramount and under NO circumstances should parents be parking in adjacent properties, double-parking or making illegal u-turns outside the school. Your cooperation in this matter is sincerely appreciated.

I look forward to a wonderful term ahead, insha'Allah.

Term 3 Dates

This term is 10 weeks in duration and will conclude on Friday, 23rd September. We kindly request that you do NOT schedule holidays during term dates as we cannot approve this kind of leave. Extended periods of absence from school affect students' performance and may compromise their enrolment at the College.

Extra Curricular Programs

All additional programs offered by the College will commence in Week 2. Permission notes for participation in the Out of School Hours Sport Program, Homework Centre, Arabic Enrichment Program and the Saturday SSE program will be released this week. Please return notes promptly with any relevant payments to ensure these programs can be organised efficiently.

Student Portfolios

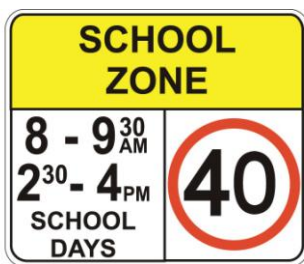

Student portfolios were released last term. It is imperative that these portfolios are now returned to school. Please remove the two reporting documents, as these are yours to retain.

Gymnastics

I'm quite certain that if you ask any of our students from Years 1 to 6 if they know about 'Got Game', you will be met with some excited smiles! 'Got Game' are a group of NSW Accredited teachers who will deliver an innovative gymnastics program for our students throughout Term 3. The specialist coaches will bring innovative equipment to deliver Gymnastics lessons every week during the students' P.E. lessons. Please ensure your child returns their permission note by the end of the week, as lessons commence next week.

Traffic and Road Safety

until 3:45p.m.

As mentioned earlier, traffic and road safety is of major concern to the College. Parents and caregivers are continuing to park illegally and disregard traffic and road regulations. Please always consider the safety of our children and ensure that you allow yourself adequate time to locate suitable parking. We kindly request that parents of only K-2 students, arrive promptly and pick children up at 3:20p.m. Parents or caregivers of Years 3 – 6 students are asked to wait until 3:30p.m. and please remember that students are always supervised at the gates

Wassalaam,

Mrs. Serougi
Deputy Principal
